

FEAST SEMINARS 2026

Overcoming Fear | Ray Hartle

Sun, Sep 27, 9:00 am

Fear is one of the biggest stumbling blocks in both our earthly and spiritual lives. It can be so powerful that it often paralyzes us from action, consequently preventing growth and limiting the abundance of grace God has in store for us. This seminar will explore the psychology behind fear, its definition, root cause, various manifestations, and, most importantly, what the Bible says about how to overcome fear.

Antichrist, An Alternative View | Bill Ennis

Mon, Sep 28, 9:00am

The identity of the Antichrist has been speculated throughout history. Biblical references can be shown to imply that this Man of Perdition rises from the Catholic, or Universal, church. This seminar will explore the possibility of a widespread historical myopia regarding the Antichrist. It can be challenging to take a step back, set aside any suppositions of the past, and try to let the Biblical text speak to us. However, in doing so, a different perspective from the very commonly presumed scenario for the end times may be revealed.

Are We Misreading Some Scriptures? | Michael Williams

Tue, Sep 29, 9:00am

With over 100 versions of the Bible translated into the English language, there are inevitable differences that impact the intended meaning. In this seminar, we will compare modern New Testament Bible versions that have words, phrases, and even whole verses missing. To make this point, we will identify scriptures to show examples of omitted words, mistranslations, watered down words, or a change of intent. To help sort out the differences, the presentation will also identify how traditions, mores, cultural differences, language, ethnicity, and race can alter the intended translation, interpretation, or words used.

Enhancing Your Emotional Endurance | Leslie Bosserman

Wed, Sep 30, 9:00am

Join Leslie to learn the foundational principles for developing emotional endurance throughout your life. Using a blend of science and scripture, Leslie will introduce practical skills that will help you get unstuck, refocus on your values, and move forward with resilience and perseverance. A deeper focus on the science of energy management and how to leverage and manage your stress will be at the core of this interactive workshop.

Where Did the Red Sea Crossing Really Take Place? | Jeffery Niccum

Thu, Oct 1, 9:00am

The traditional locations of the Red Sea crossing and Mount Sinai have been accepted for centuries—but do they actually fit the biblical account? This presentation takes a fresh look at the Exodus by starting with the biblical text itself and following its geographical clues. Scripture describes Israel's departure from Egypt, its journey toward the Promised Land, Moses' earlier flight to Midian, and the location of Mount Sinai in Arabia. Using Scripture, maps, geography, photographs, and reported archaeological evidence, we will explore the possibility of a Gulf of Aqaba crossing and a Mount Sinai located in ancient Midian rather than the traditional Sinai Peninsula. The Exodus account contains far more geographical detail than you may realize. Come explore for yourself!

Daily Bible Reading Program | Lori & Dan Faust

Fri, Oct 2, 9:00am

The Daily Bible Reading Journal and Schedule are designed to assist you as you read through the Bible in a year. The unique reading schedule highlights the annual Biblical feasts and events at the time of the year they are practiced. Combined with the addition of journaling every chapter in the entire Bible, this schedule is a wonderful method for embedding God's words in your heart and mind. This seminar will focus on the value of reading and journaling the Scriptures daily, and how this resource can help facilitate that. We are pleased to once again have a limited quantity of free journals available for seminar attendees.

Though seminar topics are approved by RVCC, content of seminars is left solely to the discretion of speakers. Material presented may not necessarily reflect the views of Rock Valley Christian Church.
